Stag

NEW FOR 2020

Classic Lockback knife selections are expanding for 2020. These knife styles have been a stalwart in the PUMA® line since the 1960's. This year we are adding full stag, Commando Stag, White Bone, G10 scaled Featherweights and G10 Ranger series with Titanium coated blades. All of these handsome lockback pocket knives are made with 1.4116 German Cutlery Steel produced in Solingen, Germany and annealed at a 55-57 Rockwell hardness. All of these Puma® SGB® knives are tested for Rockwell hardness and bear the Rockwell test mark on each blade. This provides you with proof that you have purchased a high quality knife, made with German Steel. All these lockbacks deliver a blade that holds an edge and is easy to sharpen.

Gentleman - 6169590S - 2.3" Blade

Bear - 6169600S - 2.8" Blade

BALL BEARING KNIVES

Smooth and lightening fast is what you will be experiencing when you pull the trigger on the new Sonic and Mach1, designed by Bob Carpenter. Featuring ceramic ball bearings, stainless steel frame with liner-lock construction, lightweight durable carbon fiber scales with textured edges for an excellent grip. These are the first ball bearing knives offered by the PUMA® Knife brands and are setting the bar high for one handed knife use now and in the future.

COMMANDO STAG

Created and Trademarked by PUMA® Knife Company USA owner, Bob Carpenter in 2016. This synthetic stag was molded from a genuine elk antler harvested in a place called the Commando Bowl located in central Colorado. We have sought to set a new standard for synthetic stag handles and we think you will agree we have really raised the bar. The Commando Stag has an authentic texture and color perfectly matching an elk that once roamed the High Country of Colorado. Made with POM (Polyoxymethylene) / Delrin® material; this scale type is extremely durable and versatile being resistant to contracting and swelling due to extreme temperatures. When you see the embedded HC® you know that's our Commando stag!

Visit our website for the whole story of how the infamous Commando Bull has been immortalized and his legacy can live on at: www.PumaknifecompanyUSA.com

Commando Delrin Stag material is trademarked, produced and distributed by High Country Knife and Tool. For more information please e-mail customerservice@HCKT.com

Fixed Blade Commando Stag knives come with a heavy suede sheath with leather lanyard tie

The PUMA® SGB® Heritage Series knives - based on some of the best-selling slip joint knives ever in the history of PUMA®. Originally introduced in the early 1970s, the Heritage knives were among the most popular PUMA® slip-joint knives ever made.

All of these knives features 1.4116 German Cutlery Steel Blades, Brass liners, nickel-silver bolsters, Jacaranda Wood Scales, and an easy-to-open slip joint design. The rounded edges and size makes it easy to carry these knives in your pocket. The Gelder even features a brass loop for attaching the knife to a chain or cord. Each blade is individually tested to ensure a Rockwell hardness between 55 and 57 and bears the Rockwell proof mark as proof.

Know your PUMA® Knife Brands

PUMA®, founded in 1769 and celebrating success for more than 250 years, the PUMA® brand helped make Solingen famous as the “City of Blades” – PUMA® has a special focus on classic knives made to the best handmade production techniques with design oriented forms and features for technical perfected cutlery.

PUMA® IP, an international collaboration between PUMA® and their partners in Spain. Design, production supervision and QC is performed by PUMA. PUMA IP knives use multiple steels including: 440A, 440C, 1.4116 and multiple scale materials including Stag, Bone, Micarta and Olive wood.

PUMA® SGB, designed, manufactured and distributed under license from PUMA® GmbH. Headquartered in Kansas, PUMA® SGB knives are all manufactured with 1.4116 German Cutlery Steel in Solingen, Germany and annealed at a 55-57 Rockwell Hardness to deliver a knife blade that holds an edge but is easy to sharpen. The steel is shipped to China and SGB knives are assembled under the highest standards. Offered in EDC, Tactical/Survival and Hunting knives.

Tools designed for specific use – Survival knives /Machetes / Hatchets, are typically manufactured with high grade 420C or 440A steel producing a high quality tool at competitive price points.

PUMA® TEC knives are modern styles designed by PUMA® GmbH and are produced with 100% Chinese materials. Offering great designs at competitive price points.

Attention Dealers!
